

P U B L I X

P H A R M A C Y

Feeling well. Living better.

What makes us different from other pharmacy experiences?

Immunization Delivery*

Our pharmacists administer flu, pneumonia and other vaccinations to patients were permitted by law.

Cholesterol Screening/Lipid Management*

We provide cholesterol screening and lipid management services

Bone Density Screening/Osteoporosis Management*

We offer bone density screenings and osteoporosis counseling

Medication Therapy Management*

Publix Pharmacists provide comprehensive medication reviews and extensive counseling for patients while receiving reimbursement for cognitive services.

Preceptor Opportunities with Various Schools of Pharmacy

We serve as preceptors during introductory and/or advanced practice experiences for students enrolled at various colleges of pharmacy.

Community Outreach Programs

We provide opportunities to participate in health/wellness fairs, screening programs and educational classes.

***required certification and training is available**
