

GLUTEN FREE

Gluten is the generic name for certain types of proteins that are found in common cereal grains (such as wheat, barley, rye, spelt, kamut, triticale, and their derivatives). Because it is found in a lot of foods, grocery shopping can seem very difficult if you need to avoid gluten due to celiac disease or an allergy or intolerance. But rest assured, it's not impossible to live gluten-free. To help you choose the right foods—and make shopping easier—we've created a list of gluten-free Publix brand products. But remember: ingredients can change, so always read package labels carefully. For more information, pick up our *Gluten Free* guide, available at your local Publix.

Shopping lists were compiled from products that are available in Publix Super Market stores. These products may not be available in Publix GreenWise Market®, Publix Sabor® or Pix™ stores. Because the products listed were evaluated using manufacturer-provided information, and product formulations can change at any time, Publix cannot guarantee the accuracy of the information provided. Customers are encouraged to read the product labels to obtain the most accurate nutrition and ingredient information. The information provided is intended to be nutrition and dietary guidance only and not medical advice. Publix cannot guarantee the absence of gluten in all products listed under the heading "gluten-free products" because such products may be processed on shared equipment and cross-contamination may occur during processing at the manufacturing facility.
