Have fun learning about the environment. For *free!*

Kids in the third, fourth, and fifth grade will find out about conservation and see it in action on our informative store tour. We've also developed engaging lesson plans in conjunction with Florida Atlantic University that include activities and worksheets. Teachers and other group leaders can use them in preparation for a scheduled store field trip to enhance the educational experience and help develop skills covered in the FCAT.

Pre-tour lessons include:

- "Dumpster Diving" (Pollution Prevention),
- "Water the Dinosaurs Drank" (Energy and Water Conservation),
- "Making Paper" (Reduce, Reuse, Recycle), and
- "Compost Critters" (Composting).

Publix GreenWise Market field trips include:

- a free lunch (pizza, fruit, and water), and
- free goody bags for students.

Tours can accommodate up to two groups of 15 at a time. They last for 1 1/2 hours and can be scheduled to begin between 9:45 and 10 a.m.

To schedule a Publix GreenWise Market tour for your class or group, please call our event planner.

Legacy Place, Palm Beach Gardens: 561.514.5190

Boca Village Square, Boca Raton: 561.544.2437
